SUBJECT: Prevention Funds for FY 99

Thirty million dollars in the FY99 O&M budget is designated for Prevention initiatives. This money is again included within the MTF baseline budgets. As in previous years, this equates to \$5K for day-to-day operations of the Health and Wellness Center (HAWC) and a minimum of \$10.00 per enrolled beneficiary to provide health promotion (HP) programs.

The remaining prevention funds should be targeted toward advancements of the Air Force Medical Service (AFMS) strategic goals. One primary goal remains to change the AFMS culture from one of intervention to prevention. Priorities for prevention funding, above and beyond those for HP and the HAWC, include:

- a. Health needs assessments of the enrolled population
- b. Clinical reengineering to improve the delivery of preventive services
- c. Implementation of disease and condition management programs
- d. Risk-based solutions for occupational health problems

In keeping with these priorities, the focus of this year's Prevention Conference is "Population Health." The goal of the conference is to provide information and tools for MTF personnel to implement Population Health at each installation.

To facilitate this, funding will be sent to the MAJCOM in the third quarter to allow three members from each MTF to attend the conference in San Antonio from 17-21 May 99. The funded members must include: a senior credentialed health care provider, Health Promotion Manager, and Health Care Integrator or a senior technician. One additional member per MTF may attend using local funds. A similar group from the MAJCOM staff is highly encouraged to attend. Please identify a point of contact from the MAJCOM to coordinate attendees NLT 26 Feb 99.

Finally, please ensure that current Health Promotion programs include: a Health Evaluation Assessment Review (HEAR) for active duty members, newcomer orientation to the HAWC, and prevention-based demand management programs as outlined in AFI 40-101, Health Promotion Program.

My point of contact is Maj Jayne Sterto, AFMOA/SGOP, 110 Luke Avenue, Room 405, Bolling AFB, DC 20332, DSN 297-4286.
